## **Advocare Atrium Pediatrics Opens New Facility**

FOR IMMEDIATE RELEASE

Advocare Atrium Pediatrics has built a new 6,000 square foot pediatric/medical office building. A ribbon cutting ceremony was held on Monday, August 25, 2008 at 9:00am to celebrate their Opening Day and welcome their first patients of the morning. Evesham Township Mayor Randy Brown was in attendance.

This facility was built to satisfy the needs of the growing Marlton practice and will replace the office now located on Lippincott Drive. Keeping its "Atrium" design element, which has become symbolic with the practice, is important to partners, Dr. Benjamin Rosenblum and Dr. Michael Falk. The desire to have a bright building that is an attractive place for children and suggests a pediatric practice was also important to the doctors.

Advocare is a partnership of the top doctors in New Jersey and Pennsylvania, including pediatricians, family practice doctors and specialists, each of whom has strong bonds to the children, adults, families and communities they serve. The doctors at Advocare promise to bring to each patient their vast experience, a pursuit of continuing education and a true love for the practice of medicine.

This new facility located at 301 Old Marlton Pike, Marlton, NJ was designed and built by The Bannett Group, Ltd. Based in Cherry Hill, NJ, The Bannett Group is a third-generation family-owned business and currently has more than 30 projects underway in the region. They can be reached at 856-751-8800 or on the web at **[www.thebannettgroup.com](http://www.thebannettgroup.com)**.
