BANNETT PROMOTES RECYCLING

FOR IMMEDIATE RELEASE

12/4/06

Cherry Hill, NJ – The Bennett Group, a third-generation family-owned Design-Build company which uses more than 1,500 pounds of paper each month, has started a new program to recycle paper, and is now recycling about 60 percent of its waste paper.

“Every company, regardless of size, needs to change the way it does business in a way that benefits the environment,” said Gary Bennett, Chief Operating Officer of The Bennett Group. “Like many architectural, design and construction firms, we use thousands of pounds of paper each month in our various projects.”

Each week, DocuVault, a secure records and data management company, removes recycled paper bins from The Bennett Group’s offices, and shreds the contents with powerful machinery.

Based in Cherry Hill, NJ, The Bennett Group specializes in Design-Build services for retail, medical and religious facilities, as well as project and construction management, architecture, interiors and construction. The company is a third-generation family-owned business, and currently has more than 40 projects underway throughout the New Jersey and Pennsylvania region. Learn more at www.thebannettgroup.com.
